MODULAR BOX FOR TROLLEYS WARIANT A

Sample configuration -
3-rows box variant A

Modular box for trolleys is used to park shopping and transport trolleys. The modular construction of the box allows for any configuration of the width, length and number of rows. That allows to adjust the box to the width and the planned amount of the trolley. Option A has modules that separate from each other rows of trolleys.

Finish: zinc plated and powder coated.

Modular box is available in two options of mounting to the ground:
-with feet (bolted to the ground)
-with anchors (concreted in the ground)
