

# SECURITY MIRRORS

OGLEDALA ZA NADZOR

## SECURITY MIRRORS

Security mirrors are used with great success to improve security and safety at commercial and industrial sites. They are an inexpensive and very effective means of monitoring locations with limited visibility, eliminating completely the so-called "blind" spots. We produce them in round, rectangular and triangular shapes. They feature a crystal clear image, low weight, fast, easy and safe installation, a variety of sizes, and time-tested quality.

### MINIMUM ORDER QUANTITIES!

Model	Size of the mirror	Radius of convexity	Distance*	Gross / Net weight	Package Volume
	(mm)	(mm)	(m)	(kg)	(m3)
I-30	Φ 300	480	5	0,59/0,49	0,0034
I-40	Φ 400	640	7	0,80/0,65	0,0067
I-50	Φ 500	800	8	1,10/0,85	0,0130
I-60	Φ 600	925	10	1,49/1,10	0,0223
I-70	Φ 700	1250	12	1,88/1,38	0,0302
I-80	Φ 800	1625	14	2,30/1,65	0,0394
I-90	Φ 900	2050	16	3,10/2,30	0,0497

## Rectangular mirrors

Model	Size of the mirror	Radius of convexity	Distance*	Gross / Net weight	Package Volume
	(MM)	(MM)	(M)	(KG)	(M3)
I-40x60	400x600	1250	10	1,20/0,90	0,0150
I-60x80	600x800	2050	13	2,10/1,60	0,032

## Triangular Mirrors

Model	Size of the mirror	Radius of convexity	Distance*	Gross / Net weight	Package Volume
	(MM)	(MM)	(M)	(KG)	(M3)
I-33x33x38	330x330x380	640	5	0,70/0,55	0,018

Satel Security Mirror mounting kit include:

1. Mrror
2. Plastic plate - 1 pc.
3. Flexible holder - 1 pc.
4. Set supporting elements
